

DYNAMIC

DOLLIES & RACKS

Optimist Trainer Dolly

The mock rudder is hard linked to a caster under the stern of the boat. This allows a sailor to get a feel for how the movements to the tiller change the boat's course.

Opti Trainer Dolly Solo
\$450

Opti Trainer Dolly Package
\$650

Allows for quick conversion from functional launching
Dolly to Opti Trainer Dolly

- Great for novices
- Learn how a tiller and rudder work in conjunction
- Ideal for learn to sail programs
- Hands-on learning experience for rainy days
- Allows instructor to introduce complex concepts on land without complicating factors like wind, water, current, capsizes, etc.
- Help novices understand the basic principles of sailing faster by eliminating the fear of the water
- Practice basic sailing movements like taking and gybing on land during times of inclement weather or no wind!

“The Dynamic Opti Trainer provides an outstanding platform for kids to learn about how boats work, while maintaining a safe and secure environment. Because you can put it on the same boat that a child will be sailing on, it helps create a seamless progression from land to water”

Stu Gilfillen
Director of Education, US Sailing
